

Junior School Update

Hot Topic for Term 3

Australian Animals / Being Resourceful

Essential Questions:

What makes Australian native animals so unique?

What environmental factors impact and effect the survival of Australian animals?

How can we care for the environment as active members of our School and Community?

GREEN DAY

The children loved the experience of planting new plants at Wallace Reserve on Green Day and working in their designated garden areas of the school.

The children are learning how to be responsible members of the community by reducing their rubbish (Nude Food lunches) and recycling items of rubbish such as paper and fruit scraps for composting.

ZOO

An excursion to the zoo on August the 13th was a real highlight for the children where they could compare Australian animals with those from other countries

TABLOID SPORTS

Today we went to Tabloid Sports. We did it from 9:30-12:30pm. We did the hamster wheel. It was fun. We did 9 activities. My favourite was the footy one. I did a jumping bag race. I did not give up and it was cool.
