

FACEBOOK CONSENT

Frankston Heights Primary School would like to welcome the new communication tool of Facebook. We highly value the importance of communication between school and home. The implementation of this tool is to allow our community to be informed about activities and achievements through a widely used forum. Our policy statement and guidelines coincide with our Facebook usage.

SCHOOL YEAR 2016: All parents will be required to provide their consent at the beginning of each school year as per Department guidelines.

By signing this consent, you are giving permission for photographs and/or video footage of your child, at school events and activities, to be posted on the school Facebook page. All photos and footage will be taken by school staff members only.

I understand and agree that if I wish to withdraw this authorisation, it will be my responsibility to inform the school.

I give permission

I do not give permission
