These classroom leaders have a responsibility to help guide other students to take care of our natural resources and environment. Their responsibilities include helping the class to recycle paper and cardboard properly, reduce energy use (electricity and water), reduce rubbish in the yard (nude food lunchbox collection and collecting rubbish in the yard). They are also encouraged to develop their own ideas to improve sustainability and the environment at our school. They attend 1-2 meetings a term to share ideas, solve problems and deliver messages back to their class.

This week, we held our very first Green Team meeting, where we discussed the role and responsibilities of the Green Team reps, recycling and nude food. This is a fabulous group of students, some of whom wanted to keep talking about ideas and solutions even after the meeting had finished, and others who went straight to picking up rubbish in the yard.

We are lucky to have such a passionate and committed group of students!

# ROADWORKS

## Heatherhill Rd and Brooklyn Ave Intersection Improvement Works

Frankston Council have advised that intersection improvement works are scheduled to commence in March 2025 at the intersection of Heatherhill Road and Brooklyn Avenue.

While works are underway, Brooklyn Avenue will be closed to all through vehicle traffic with detours in place. A lane closure will also be in effect on Heatherhill Rd, with temporary traffic lights maintaining traffic flow in both directions. Your co-operation and patience during construction is requested and appreciated.

The extent of work is below.
