FHPS VOLUNTEER CHILD SAFETY INDUCTION REQUIREMENTS

FHPS greatly values the support of our volunteers. Your contribution enriches our school community and helps provide valuable learning opportunities and experiences for our students.

We have recently updated our Volunteer Induction processes to ensure all volunteers are appropriately inducted and familiar with our Child Safety and Occupational Health and Safety (OHS) requirements.

Before undertaking any volunteer role where children are, or are reasonably expected to be, present, all volunteers will need to complete the following requirements:

- **Working With Children Check (WWCC):** Please present your current WWCC to the Main Office, where an administration staff member will take a copy for our records. Volunteer WWCC details will then be uploaded to our new SAM4Schools system for validation.
- **Child Safety and OHS Induction:** Once your WWCC has been validated, you will receive an email with information and documents relating to the school's Child Safety and OHS requirements. Volunteers will be required to read the documents provided and acknowledge that they understand and accept the relevant requirements before commencing their volunteer role.
- **Onsite induction:** Prior to your first volunteer session, a member of our Administration team will complete an onsite induction with you. This will provide an opportunity to discuss our procedures, expectations and any questions you may have.

All volunteer induction documents and acknowledgements must be reviewed and signed every 12 months to ensure that our records remain current, and volunteers are familiar with the school's requirements.

These processes are an important part of ensuring FHPS provides a safe, welcoming and supportive environment for all students, staff and volunteers.
